**Electronic Systems Solutions, Inc. (ESS) Awarded New York State
Contract# PT65385, Security Systems and Solutions, Statewide**

Electronic Systems Solutions, Inc has been awarded contract# PT65385 in response to RFP 20191, Group 77201, Security Systems and Solutions, for Lot 1, Statewide.

The product offerings on the contract include voice recorders, camera and video recording systems, monitoring equipment, access control including turnstiles, and the hardware required to support various security systems. ESS represents the following manufacturers and distributors: Eventide, Inc., Keyscan Access Control Systems Inc., i3 International Inc., ORION Entrance Controls Inc., Security Door Controls, Inc., Tatung Company of America Inc., and Vigilant Video Inc.

Bill Clark, President of Electronic Systems Solutions, Inc, stated, 'We are very excited to be able to provide our customers and potential customers with a vehicle to purchase high end, reliable security solutions products without compromising their budget.'

The contract award period began on March 29, 2011. The contract information can be viewed on the official New York State website: www.ogs.state.ny.us or at www.gotoess.com

Electronic Systems Solutions Inc.(ESS) is recognized as an integrator of wireless two-way radio and IP communications specializing in radio interoperability, access control and other security products, wireless broadband including mesh, computer networking, and surveillance for government agencies, universities, hospitals, utilities and Fortune 500 companies. With four strategic locations ESS covers New York State and the NYC/NJ metropolitan area and has the ability and resources to provide products and services anywhere in the world.

Eventide voice recorders empower thousands of public safety, utility and transportation agencies worldwide with advanced connectivity, exceptional incident management tools and Linux-based system reliability.

Keyscan Access Control Systems Inc., manufacturers premium access control systems that electronically regulate doors and elevators. Keyscan designs and builds access control systems that address today's real world security challenges.

i3 International, Inc. is a manufacturer of IP video technology, video analytics, access control and POS data integration. i3 is committed to the pursuit of customer satisfaction by providing solutions that are intelligent, innovative and integrated.

Orion Entrance Control Inc., manufacturers technically superior and architecturally pleasing turnstile solutions including optical, remote lane controllers, full height turnstiles, and gates for high rise buildings, government centers, education campuses and corporate headquarters.

Security Door Controls, Inc (SDC) develops, manufacturers and markets mechanical door locks and exit devices, access control, electronic locking devices and security systems. SDC premium grade electrified mortise and cylindrical locks are installed in thousands of building skylines worldwide.

Tatung Company of America is a worldwide provider of technologically advanced video products, customer solutions and manufacturing services that include component solutions to complex video applications.

Vigilant Video is an innovative software development company that designs and delivers high quality video recognition systems. Vigilant Video builds effective and user-friendly software applications for public and private security groups at the enterprise level.
